Subject: KPMA - Speed Bumps

KPMA NEWS E-BLAST

The intersection of Kensington High Street and Eatonwood Lane is a potentially dangerous area.

Consequently, we placed a speed bump coming out of the Gardens on to Kensington High Street, and at the intersection of Eatonwood Lane onto Kensington High Street for a trial period over the summer months. However, what we now see happening, is many people are driving around the speed bump, and into the entry lane to avoid the speed bump, causing another form of danger at the intersection.

Therefore, we have decided to remove the speed bump coming out of the Gardens in early November, and will be evaluating an alternative approach, that will still maintain the success we have had at reducing the number of stop sign violations.

Keeping our residents and guests safe is our main concern.
